

Principal's Welcome

Greetings,

I am excited about being appointed the principal of Estill High School and I am looking forward to working with you this upcoming school year. I realize that serving the students and the teachers is a privilege as well as a tremendous responsibility. I will do my best to inspire all students to develop their maximum potential by promoting achievement, cooperation and self-discipline. I truly believe that our students will benefit from the high expectations of their administrators as well as their teachers dedication to their academic and personal success.

My primary goal is to improve the school's rating on the state report card by promoting academic excellence and by offering instructional programs that address the individual needs of students and faculty. I am proud to state that Estill High School offers a 4x4 block schedule that allows students to focus on fewer courses at one time while completing more courses during the school year. Qualified students have the opportunity to participate in Dual-Enrollment; thus, earning both high school and college credits at the same time.

Students are also given the opportunity to excel outside the classroom through our variety of clubs and athletic teams. The faculty and staff of Estill High School demonstrate Gator Pride and commitment to bettering our students by their willingness to sponsor clubs, coach teams and supervise the various field trips. However, these endeavors will not be accomplished without the dedication from parents and partner in education. Therefore, we are committed to building the bridge between family and school by promoting a family-friendly environment. Parent participation throughout the school year is vital to the success of students and our teachers. You are always welcome and encouraged to contribute to the success of our school and students by visiting and volunteering during the school day. Your involvement will help your sons and daughters to become more successful now and in the future.

Finally, I promise to work tirelessly to ensure that our students are prepared for college and careers in the 21st century. As a student-focused administrator, I believe in doing whatever it takes to make students successful. I know with your help and commitment, we are going to have a great year!

Sincerely,

Dr. R. Brown

Principal

Estill High School
